Millions have learned how much fun cake decorating can be in Wilton Method Classes. Our students keep coming back for more, because each Wilton Class helps anyone get beautiful results – even those who have never decorated before! The secret of success? Wilton Method Instructors. Their friendly, patient way of teaching makes learning a pleasure. Our Instructors work with you, giving personal attention to help you perfect each technique. Wilton Method Instructors make learning fun.

Response from students has been so amazing that we've added new classes, featuring more ways to decorate great cakes and treats. Now you can be ready for any occasion, with the perfect, personalized dessert. Imagine the great things you can make – colorful cakes for kids' birthdays featuring today's hottest characters, beautiful floral basket cakes for Mom, charming gingerbread house centerpieces to make your holiday festive. We'll show you how to do it all!

### Wilton Method Classes 4 sessions per course

#### Course I - Cake Decorating

Stars, shells, roses and floral sprays give you the fundamentals to create so many cakes. Add messages and create fun, figure-piped shapes.

#### Course II - Flowers and More!

Build on the basics with beautiful blooms like daisies, pansies, violets and daffodils. Use these flowers and techniques like basketweave and color flow, to create a fabulous bouquet cake for a sweetheart, Mom, sister, or friend.

#### Course III - Fondant and Tiered Cakes

Ruffled borders, advanced flowers and stringwork expand your decorating horizons. Lessons in rolled fondant and tiered cake assembly culminate in an elegant cake suitable for a wedding, formal shower or fancy party.

#### Fondant and Gum Paste

In this new course, you'll experience a variety of fondant techniques and the beauty of decorating with gum paste. Create flowers and accents with beautiful detail; see how to use tools to cut and shape amazing textured ribbons and borders.

#### Project Classes 1 or 2 sessions each

Focus on one fabulous decorating project. We have more to choose from than ever\* – Pre-baked Gingerbread Houses, Fondant Cakes, Star Character Cakes, Cookie Blossoms, Mini Cakes, Candy and more.

\*Not all classes are offered at all store locations. Check with your local retailer for class offerings.

### To Decorate Princess Carriage

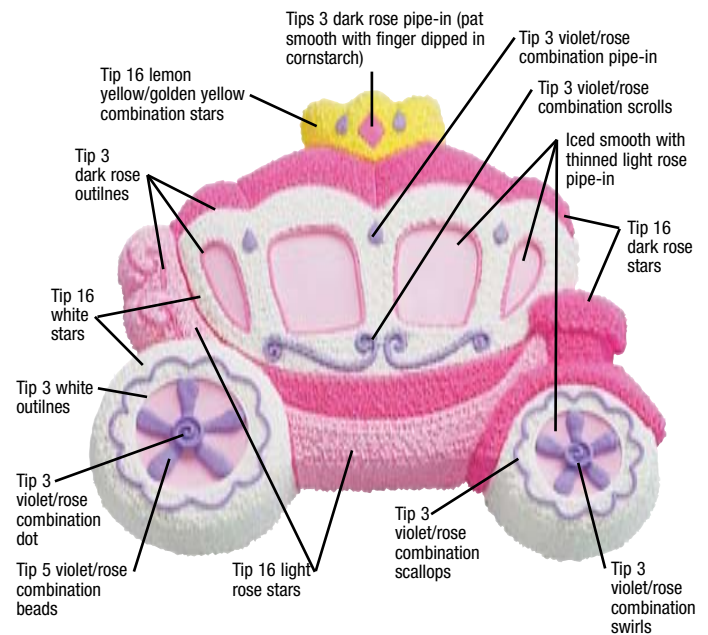

You will need Wilton Icing Colors in Rose, Violet, Lemon Yellow and Golden Yellow, tips 3, 5, 16; cornstarch. We suggest you tint all icings at one time while cake cools. Refrigerate tinted icings in covered containers until ready to use (bring to room temperature for decorating).

- Make 3 ¼ cups buttercream icing:
- Tint ¾ cup light rose (thin ¼ cup with ¾ teaspoon light corn syrup)
  - Tint 1 cup dark rose

- Tint ¼ cup lemon yellow/golden yellow combination
- Tint ¼ cup violet/rose combination
- Reserve 1½ cups white

### Decorate in Order:

1. Ice windows and inside wheels smooth with thinned light rose icing.
2. Use tip 3 and dark rose icing to outline carriage, windows and back trim.
3. Use tip 3 and white icing to outline inside wheels.
4. Use tip 16 and white icing to cover door and wheel sections with stars.
5. Use tip 16 and dark rose icing to cover roof, front fender, headlight, hood and base sections with stars.
6. Use tip 16 and light rose icing to cover running board and back sections with stars.
7. Use tip 16 and lemon yellow/golden yellow combination icing to cover crown of carriage with stars.
8. Use tip 5 and violet/rose combination icing to pipe bead spokes on wheels.
9. Use tip 3 and violet/rose combination icing to pipe dot wheel centers.
10. Use tip 3 and violet/rose combination icing to pipe swirls on wheel centers, scallops on wheels and pipe in scrolls below windows.
11. Use tip 3 and violet/rose combination icing to pipe in teardrop shapes between windows.
12. Use tip 3 and dark rose icing to pipe in diamond shape on crown of carriage (pat smooth with finger dipped in cornstarch).

## Bake Easy™

### Convenient Non-Stick Spray!

For cakes that turn out beautifully every time, start by spraying pans with Bake Easy. This non-stick spray helps your cakes release perfectly with fewer crumbs for easier icing and a flawless decorated cake. Just a light, even coating does the job. Use Bake Easy for all mixes and recipes—cupcakes, brownies, breads and more. Versatile for all types of baking and cooking. 6 oz. **702-6018**

## To Decorate Regal Ride

You will need Wilton Icing Colors in Violet, Rose, Lemon Yellow and Golden Yellow, tips 3, 5, 12, 16, 224, Meringue Powder, cornstarch. We suggest you tint all icings at one time while cake cools. 22. Using tip 5 and light rose icing, pipe bead bottom border.

## Baking Instructions

Preheat oven to 350°F or temperature per recipe directions. Before first and after each use, we recommend hand washing pan in warm soapy water. Your cake will unbind easily, without sticking, when you prepare the pan properly. Grease the inside of pan using a pastry brush and solid vegetable shortening (do not use butter, margarine or liquid vegetable oil). Spread the shortening so that all indentations are covered. Sprinkle about 2 tablespoons flour inside pan and shake so that flour covers all greased surfaces. Turn pan upside down and tap lightly to remove excess flour. If any shiny spots remain, touch up with more shortening and flour to prevent cake from sticking. (You can use vegetable oil pan spray or **Wilton Cake Release** or **Wilton Bake Easy™ Non-Stick Spray**, in place of solid shortening and flour). Make one 2-layer cake mix according to package or recipe directions. Pour the cake batter into pan, and if necessary, spread the batter around with a spatula to fill all areas of the pan evenly. Be careful not to touch sides or bottom of pan. Bake cake on middle rack of 350°F oven for 40-45 minutes or until cake tests done according to recipe directions. Remove cake from oven and cool on cake rack for 10 minutes. While the cake is still in the pan, carefully slice off the raised center portion of the cake. This allows the cake to sit more level and helps prevent cracking. To remove cake from pan, place cooling rack against cake and turn both cake rack and pan over. Lift pan off carefully. Cool cake at least one hour. Brush loose crumbs off cake. To transfer cake to serving board, hold a cake board against cake and turn both cake and rack over. Lift off rack. Hold another board against bottom of cake and turn cake over. Be sure to hold cake, rack and board close together while turning to prevent cake from cracking.

## Using Your Decorating Bag and Coupler

You can make many different designs with just one decorating bagful of icing by using the Wilton Featherweight or Disposable Decorating Bags and Coupler and changing decorating tips.

Just follow these steps:

1. Screw ring off coupler to expose series of tiny threads ½ in. above coupler base.
2. Force coupler base as far down into decorating bag as it will go. Then mark where bottom thread of coupler shows through bag; remove coupler and trim bag at pencil mark with a pair of scissors.
3. Reposition coupler in bag and push end through opening to expose bottom two threads.
4. Position decorating tip over coupler and screw ring in place to secure. To change tips, unscrew ring, replace tip and replace ring.
5. To fill, cuff open end of bag over your hand and insert icing with a spatula. Fill bag no more than half full.
6. To close, unfold cuff and twist top of bag shut. Hold twist between your thumb and forefinger. Note: You can eliminate any air bubbles that may have formed by squeezing bag gently over icing bowl until air is released. Important: Be sure to wash the Featherweight bag in hot soapy water, then rinse and dry after every use. A degreaser can make clean-up easier.

## Decorating With Wilton Icings

**Wilton Icing Mix:** You will need 2-3 packages of Creamy White Icing Mix.

To prepare, follow package directions. Each package makes about 2 cups icing. Excellent for tinting any shade required. Do not refrigerate icing before decorating. Cake may be refrigerated after it is iced.

**Wilton Ready-to-Use Decorator Icing:** You will need approximately 2-3 cans of our delicious white icing. Each 16.5 oz. can holds about 2 cups. It's ideal for all of your decorating needs – frosting, decorating and flower making.

## Making Buttercream Icing

The thick, but creamy texture of this flavorful icing makes it ideal for decorating. For best results, keep icing bowl in refrigerator when not in use. It can be refrigerated in an airtight container for up to 2 weeks. Rewhip before using.

½ cup solid vegetable shortening      4 cups (1 lb.) sifted confectioners' sugar  
 ½ cup butter or margarine, softened      2 tablespoons milk  
 1 teaspoon Wilton Clear Vanilla Extract

Cream butter and shortening with electric mixer. Add vanilla. Gradually add sugar, one cup at a time, beating well on medium speed. Scrape sides and bottom of bowl often. When all sugar has been mixed in, icing will appear dry. Add milk and beat at medium speed until light and fluffy. To thin for icing cake, add a small amount of light corn syrup. **For Chocolate Buttercream:** Add ¾ cup cocoa or three 1 oz. unsweetened chocolate squares, melted, and an additional 1 to 2 tablespoons milk to recipe. Mix until well blended. Yield: 3 cups.

## Making Royal Icing

3 tablespoons Wilton Meringue Powder  
4 cups (1 lb.) sifted confectioners' sugar  
6 tablespoons water\*  
Beat all ingredients at low speed for 7-10 minutes (10-12 minutes at high speed for portable mixer) until icing forms peaks. Makes 3 cups.

\*When using large countertop mixer or for stiffer icing, use 1 tablespoon less water.

## Coloring Your Icing

Wilton Icing Colors are best for decorating because they are concentrated and give the deepest, most vivid icing colors. Use a toothpick to swirl icing color into icing, then mix well. Add color gradually until you get the icing color you desire.

## Let's Practice Decorating

Use decorating bag and coupler as directed. Practice each of the following techniques on the back of a cookie sheet with white icing. The practice decorations can be scraped off the cookie sheet back into the mixing bowl and rewhipped for use again. To hold bag while decorating, curl fingers around bag with the end twist locked between your thumb and index finger. This forces the icing down into the tip each time you squeeze. Apply even pressure with all four fingers and icing will come out of the tip until you stop squeezing. As you decorate, periodically twist the bag down further, forcing the icing down into the tip. Use fingers of other hand to guide as you decorate.

For more about decorating, refer to the Wilton Yearbook of Cake Decorating or visit [www.wilton.com](http://www.wilton.com).

## Icing Smooth With A Spatula

With a spatula, place icing on cake. Spread icing over area to be covered. For a smooth effect, run spatula lightly over the icing in the same direction, blending it in for an even look. For a fluffy effect, swirl icing into peaks using the edge of the spatula.

## To Make Outlines

Use tip 3, 5 or 12. Hold bag at a 45° angle and touch tip to surface. Squeeze at starting point so that icing sticks to surface. Now raise the tip slightly and continue to squeeze. The icing will flow out of the tip while you direct it along surface. To end an outline, touch tip back to surface, stop squeezing and pull away. If icing ripples, you are squeezing bag too hard. If icing outline breaks, you are moving bag too quickly or icing is too thick.

## To Outline & Pipe-In

After outlining, using the same tip, squeeze out rows of lines to fill area. Pat icing down with fingertip dipped in cornstarch or smooth with dampened art brush.

## To Make Drop Flowers

Use tip 224. Hold bag straight up and down to your decorating surface, with your hand turned a quarter turn to the left. Touch tip to surface and, as you squeeze out icing, turn hand back to the right, stop pressure and pull tip away. Your flowers will be neatly formed only if you stop squeezing before you pull tip away. Make all your flowers on sheets of waxed paper attached with icing to the back of a sheet pan. Add tip 2 dot centers and let air dry. To attach flowers, dot back of flower with icing and place flower in position.

## To Make Scallops

Use tip 3. Touch tip to where point of scallop will begin. Squeeze and lift bag, pulling toward you and to the next point. The icing will drop by itself; do not move the tip down with the string. The end of the tip should be the same distance from the surface as the width from scallop point to point on your cake. Stop pressure before you touch tip to the end point of scallop. Repeat, keeping scallops uniform in width and length.

## To Make Swirls

Use tip 3. Hold decorating bag straight up with tip 1/8 in. above surface. Starting at the outer edge of area, squeeze bag, holding tip in place momentarily. Then move tip in a clockwise direction using a circular motion until center is reached. Stop pressure and pull tip away.

## To Make Beads

Use tip 3 or 5. Hold bag at 90° angle to surface, with end of bag pointing towards you. Lightly touch tip to surface and squeeze until icing builds up and fans out into a base. Then lift tip slightly and relax pressure as you pull tip down and towards you to make a tail. Stop pressure completely and pull tip away for a finished bead. Practice this procedure until you can produce a clean bead shape. To make a row of beads, rest head of one on tail of preceding bead. For larger beads, increase pressure, for smaller beads, decrease pressure.

## To Make Stars

Use tip 16. Hold bag straight up and down (see illustration) with tip 1/8 in. above surface. Squeeze until a star is formed, then stop pressure and pull tip away. Your stars will be neatly formed only if you stop squeezing before you pull the tip away.

## To Make Shells

Use tip 16. Hold decorating bag at a 45° angle, slightly above surface with end of bag pointing towards you. Squeeze until icing builds up and fans out into a base as you lift tip slightly. Relax pressure as you lower tip until it touches surface. Stop pressure and pull tip away without lifting tip off surface to draw shell to a point. Practice this procedure until you can produce a clean shell shape. To make a row of shells, rest head of one on tail of preceding shell. For larger shells, increase pressure; for smaller shells, decrease pressure.

## To Make Fleur-De-Lis

Use tip 16, holding bag at a 45° angle. Pipe a basic shell; elongate the tail. Keeping bag at a 45° angle, pipe a reverse shell to the left of the center shell and join the tails. Repeat procedure with another reverse shell to the right side of the center shell.

## To Make Balls

Use tip 12. Hold bag at 90° angle with tip almost touching surface. Steadily squeeze out a dot of icing, lifting the bag slightly and keeping tip in icing as it builds up into a small mound. Then stop pressure and pull tip away. Vary size of dots by lengthening the amount of time you apply pressure to the bag. To make large dots or balls, lift tip as you squeeze to allow greater icing buildup.

## Cake Release

**For perfect, crumb-free cakes!**

No need to grease and flour your baking pan – Cake Release coats in one step. Simply spread Cake Release lightly on pan bottom and sides with a pastry brush and fill with batter. Cakes release perfectly without crumbs every time, giving you the ideal surface for decorating. Now in convenient dispensing bottle. Certified Kosher. 8 oz.
